

onlife

New generation social network
The most truthful service

The application is implemented on the blockchain technology for:

Users

Businesses

Expats

Migrants

onlife PROBLEMS

USERS

Cheating on the Internet, bought reviews and recommendations, there is no accurate and verified information.

No proven recommendations of local and seasoned travelers.

High rental prices and service, overpayment intermediaries.

onlife PROBLEMS

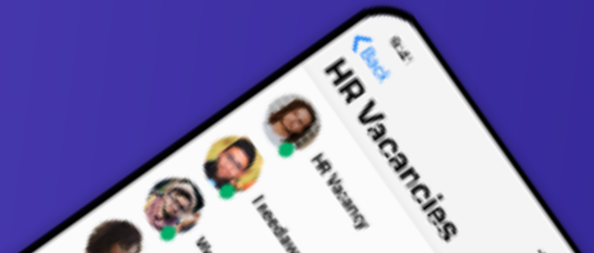

BUSINESS

High prices for advertising and promotion.

It is expensive and long to hire employees.

High commissions from intermediaries.

Search for business partners.

onlife PROBLEMS

EXPATS and MIGRANTS

Collection of documents for migration and long stay.

High prices for rental housing and transport.

There is formed a community of compatriots.

Fear of being deceived (do not pay wages, do not provide housing).

USERS

Audit check and control of the authenticity of the content by the application.

Experienced travelers and locals will tell you about the real situation.

Rent and payment services without intermediaries.

Payment for goods and services anywhere in the world.

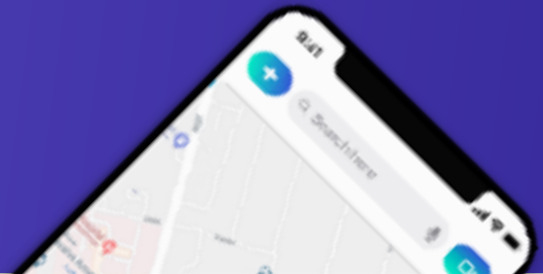

BUSINESS

Free accommodation, best advertising - customer reviews.

Hiring employees, no agencies and commissions.

We remove middlemen and connect customers and business directly.

Business receives an influx of new customers.

EXPATS and MIGRANTS

Vacancies anywhere in the world.

We provide a full set of documents for moving to any country.

Rent and payment services without intermediaries.

Active community, formed by interest.

MONETIZATION

By opening a new location and connecting to the service-the user receives 0.1%.

The author of the created content receives from 3% to 5% of the purchase made from his post.

The user of our application has constant discounts on any service.

Auditors - receive audit assignments, perform audits and receive payment.

Business is ready to pay us 7% - 30% of the customer's checks. This Commission is divided between the user and the platform.

Online earns 0.3% to 5% interest on every transaction in the system.

With the planned marketing, the audience forecast is 400 million users within 5 years.
